

Nour el houda LAAJILI

Data & AI Engineer

nour-el-houda.laajili@enis.tn | (+216)26 166 408 | Tunis, Tunisia | nourlaajili | Laajili Nour

PROFILE

Graduate Computer Engineer with a strong orientation toward Data & AI, particularly at the intersection of data engineering, analytics, and intelligent automation. Looking to specialize in building reliable data-driven systems and applying AI to practical data challenges. Interested in opportunities that combine solid data foundations with analytical and intelligent capabilities, while continuing to deepen expertise through real-world engineering work.

SKILLS

- Data Engineering: Python, SQL, ETL/ELT, Data Modeling, dbt, Apache Airflow, Talend
- Databases & BI: SQL Server, PostgreSQL, MongoDB, Power BI
- Development: Java, Flask
- Data & AI: Machine Learning, LLMs, RAG, Pandas, NumPy, Scikit-learn
- Data quality & Automation: Great Expectations, Data Pipelines, Git, Docker, CI/CD, n8n
- Languages: Arabic (Native), French (Bilingual), English (Fluent)

PROFESSIONAL EXPERIENCE

Data & AI Engineering Internship 02/2026 – 07/2026 | Tunis
Moonside Consulting & Services | Client: MorgenFund
- Engineered an end-to-end data pipeline for the data warehouse using **PostgreSQL, dbt and Airflow**, automating ingestion, transformation, validation, and monitoring workflows, eliminating manual stage-by-stage execution.
- Implemented a data quality layer with **Great Expectations**, validating completeness, validity, consistency, and uniqueness against business-defined expectations, replacing fragmented checks with systematic validation.
- Integrated intelligent analysis modules combining **rule-based** checks, **ML** algorithms, and **LLMs**, detecting anomalies, generating correction recommendations, and reviewing transformation code, automating first-level analysis and supporting data engineer investigation.
- Developed **Power BI** dashboards and a **Flask**-based portal to centralize business and pipeline monitoring, providing users with visibility into data quality, anomalies, and operational performance through a unified monitoring interface.

Data Engineering Internship 06/2025 – 08/2025 | Sfax
LAGID Olive Soft Tunisia
- Automated QA reporting using **Talend ETL pipelines** and **Allure JSON** data, reducing manual analysis time by 80%.
- Modeled a **SQL Server** data warehouse using a constellation schema, centralizing over 15,000 test executions for reliable quality trend analysis.
- Deployed multi-profile **Power BI dashboards**, improving cross-team visibility and data-driven decision-making.

Full-Stack Development Internship 06/2024 – 08/2024 | Nabeul
Viore Digital
- Developed a **Laravel/MySQL** web platform centralizing creator profiles and connecting them with 200+ potential clients.
- Designed a responsive interface and optimized database management for over 5,000 user and content records.

EDUCATION

National School of Engineers of Sfax (ENIS) 2023 – 2026 | Sfax
Engineering Degree in Computer Science & Applied Mathematics
Highest honors with jury commendation

Preparatory Institute for Engineering Studies of Nabeul (IPEIN) 2021 – 2023 | Nabeul
Preparatory cycle in Mathematics and Physics (MP)

PROJECTS

AI-Powered Secure Authentication System for Immersive Medical Application 11/2025
LLM, RAG, Python, n8n
- Designed an AI-driven authentication workflow using LLMs and RAG to classify simulated attack patterns.
- Automated detection and alerting workflows using n8n and API integrations.

Pharmaceutical Supply Chain Management System 11/2024 – 04/2025
MERN Stack, Hedera, IPFS, Smart Contracts, MongoDB
- Built a full-stack pharmaceutical supply chain platform using the MERN stack (React.js, Node.js, Express.js, MongoDB), enabling end-to-end traceability from manufacturers to pharmacies.
- Implemented Solidity smart contracts on Hedera Hashgraph and integrated IPFS for secure regulatory document storage, reducing verification time by 40%.

CERTIFICATES

- Apache Airflow 3 Fundamentals (Astronomer)
- Microsoft Azure Fundamentals (AZ-900)
- DevNet Associate (Cisco networking academy)
- Hashgraph Developer Course
- Oracle Cloud Infrastructure Certified AI Foundations Associate
- Data Analytics Essentials (Cisco networking academy)
- Data Science Essentials With Python(Cisco networking academy)

LEADERSHIP & ACTIVITIES

Chair of IEEE ENIS Computer Society Student Chapter 2024 – 2025

Planning Head for Pitch Yourself For A Career forum 2024
